

We have attained a matchless position in the market as a Leading Manufacturer and Supplier of Load Banks. These are highly appreciated by our clients for their use in Power Supply Equipment, Standard Generator Testing, Battery Discharge, Elevator, Frequency Converters, UPS power and more. The offered banks are used for single or three phase testing of DC or AC supplies with complete accuracy. Their electricity hazard protected mechanism is completely safe to operate. Moreover, our Load Bank has a weather resistant body and has extended operational life.

Note:

TECHNICAL SPECIFICATION	
Voltage:	30V DC
Current:	140A DC
No of Steps:	7 Steps (5Ax2,10Ax1,20Ax2, 40Ax2)
Selection Type:	Suitable DC MCBs

  

Indications	
Separate indicators for Voltmeter and Current Meters	

  

FEATURES	
Type of cooling:	Forced Air, using FAN
Enclosure type:	The Load Bank will be Constructed with rugged M.S Sheets/Mess
Painting:	Powder coating,(Black)
Auxiliary Supply:	230V AC With suitable 3pin socket on door for connecting Aux, AC Supply for cooling fans and meters
Connection Terminals:	Suitable Busbar
Mobility:	Freely movable through suitable wheels

**Approx. Dimension:**  
**400 X 400 X 600 mm (Width x Depth x Height)**

**RUGGED AND AESTHETIC MECHANICAL AND ELECTRICAL DESIGN**
